Detailed Action

Response to Amendment

1. Applicant's Remarks/Arguments filed on 7/7/2008 regarding claims 10-11, 29-30 have been fully considered. Claims 1-9, 12-28 have been cancelled and claims 29-30 have been newly added by applicant. Claims 10-11, 29-30 are currently pending.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The present application relates to providing a method for maintaining synchronization of striped data traffic, including the unique steps of:

“sending a common character in striped data in all lanes for a predetermined number of cycles;

evaluating the common control characters received at stripe receive synchronization queues; and

detecting when an in-synch condition is present that indicates the stripe receive synchronization queues have been cleared.”

The closest prior art, Dittia et al. (USP 6,654,342), discloses a method for monitoring congested flow condition at line cards of a switch based on detecting flow control information received at the line cards. However, Dittia fails to anticipate or render obvious the above quoted limitations of the present application. This renders the claims allowable.

Art Unit: 2616

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
